

WIRE-FREE POWER. FULL-COLOR INTERACTION.

FiitScreen Touch™ is a 15.6-inch interactive touchscreen display designed to deliver full-color engagement with flexible power options for modern business environments. Built to support Power over Ethernet (PoE) and optional PowerBank operation up to 14 hours continuous use, it allows businesses to place screens where they are needed most without relying solely on traditional AC wiring. AC power is also supported for standard installations.

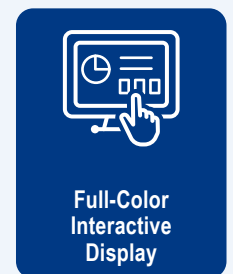

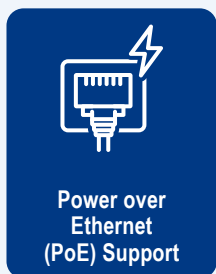

With a Full HD IPS touchscreen, Android 13 platform, integrated camera and audio features, and flexible mounting options, FiitScreen Touch™ is ideal for digital signage, self-service applications, interactive kiosks, healthcare environments, workplace communications, and more.

FLEXIBLE POWER OPTIONS

POWER IT WHERE YOU NEED IT

FiitScreen Touch™ was designed for customers looking for a full-color screen that can be deployed with more flexibility and fewer visible wires. Support for Power over Ethernet (PoE) and optional PowerBank operation allows the screen to be installed in locations where traditional power access may be limited, inconvenient, or undesirable. AC power is also supported for conventional installations.

POWER & DISPLAY FEATURES

Whether mounted in a customer-facing area, placed in a temporary location, or used where clean installation matters, FiitScreen Touch™ gives businesses more flexibility in how and where they deploy interactive screens.

INTERACTIVE TOUCH EXPERIENCE

BUILT FOR ENGAGEMENT

The 15.6-inch Full HD IPS display delivers vibrant visuals and responsive touch interaction for a wide range of applications. Whether used for customer engagement, employee communications, digital signage, or interactive information displays, FiitScreen Touch™ provides a modern and intuitive experience.

FEATURES

15.6" Full HD IPS Display

Capacitive Multi-Touch Screen

Integrated 8MP Front Camera

Built-In Stereo Speakers

Quad Microphone with Noise Reduction

The bright high-definition display and built-in touch capabilities help create a more interactive and engaging experience for customers, staff, and visitors.

ADVANCED CONNECTIVITY

CONNECTED FOR MODERN BUSINESS

Designed for modern business environments, FiitScreen Touch™ provides multiple connectivity options for reliable deployment, content delivery, and day-to-day management.

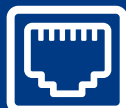

CONNECTIVITY FEATURES

Wi-Fi 6 Connectivity

Bluetooth 5.3

Gigabit Ethernet

Optional 4G Connectivity

Multiple USB Connections

Flexible connectivity options make FiitScreen Touch™ easy to deploy across retail, hospitality, education, healthcare, and corporate environments.

ANDROID POWERED FLEXIBILITY

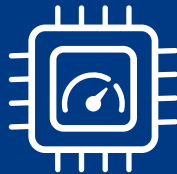

CONNECTED FOR MODERN BUSINESS

Running on Android 13, FiitScreen Touch™ supports a wide range of applications and business use cases. From digital signage and kiosks to internal communications and self-service interactions, the platform is designed to adapt to your environment.
