

The Leak Detector can be placed near bathrooms, washing machines, and other appliances or fixtures and will keep an eye out for water leaks. It can detect as little as three drops of water. The Leak Detector will notify the user on sensing water and the Valve Controller (sold separately) will automatically shut off water to prevent further damage. Three separate set of sensors, the Bottom (Main) Sensors, the Drip Tray, and the Remote Sensor Probe (optional), act together to monitor any appliance or fixture for leaks.

STANDARD FEATURES

- 15 YEAR BATTERY LIFE
- OPTIONAL REMOTE SENSOR TO FIT TIGHT SPACES
- 1000' WIRELESS RANGE
- DETECTS FREEZING TEMPERATURES
- LED AND BUZZER NOTIFICATIONS
- VIBRATION SENSOR ENABLES TAMPER DETECTION

SPECIFICATIONS

PHYSICAL ATTRIBUTES	Dimensions	4.7" x 3.3" x 1" (W x D x H)
	Ingress Protection	IP67
	Required Tools	None
POWER SPECS	Battery Type	ER18505 3.6V Battery
	Battery Life	15 years
CONNECTIVITY	Inputs	Minijack (Remote Sensor Probe, optional)
	Wireless Connectivity	Guardian RF
	Wireless Range	1,000'
	Max Sensors Per System	100 Sensors
	WiFi Required	No
PHYSICAL INTERFACING OPTIONS	Available Data	Leak status, Temperature, Vibration/Tamper
	Audible Alerts	Yes, via Buzzer
	Visual Alerts	Yes, via LED
	Buttons	None
	LED Status Indicator	Power up, leak events, vibration events
	Additional Feature	Quarter-Round cut out for placement adjacent to walls
	Requirements	Valve Controller within 1,000 ft of Leak Detector
SENSORS	Drip Tray	Detects minor leaks
	Bottom Sensors	Detects large leaks
	Magnets	Effective placement onto metal surfaces
