

MAKE YOUR BRAND ADDICTIVE

Nōwn POS is a customer recognition point of sale software designed for retail. Whether it's a small business or an established enterprise Nōwn puts people first which enables you to know every customer that walks through your door. Nōwn makes your brand addictive by humanizing transactions transforming a point of sale into a personalized point of experience.

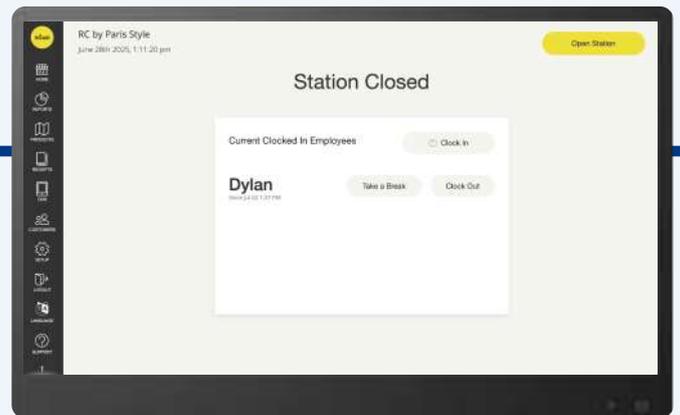

CLOUD-BASED SOLUTION

Nōwn point of sales work on iPads or Windows and it's fully cloud-based so you can access your data and make changes from anywhere you are.

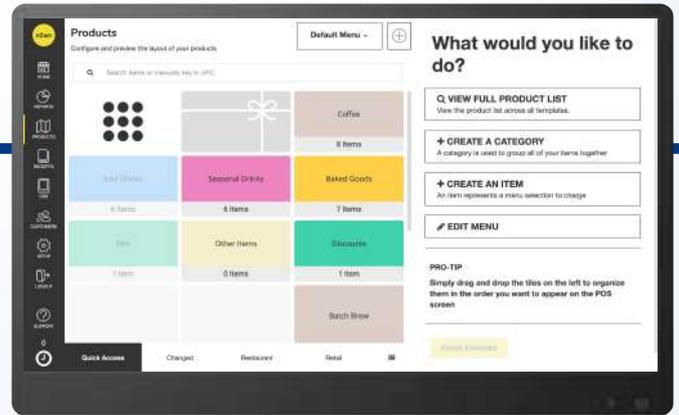

OFFLINE MODE

Offline Mode ensures you're always able to take payments, even when your internet lets you down. All offline data syncs up once you have returned to Online Mode.

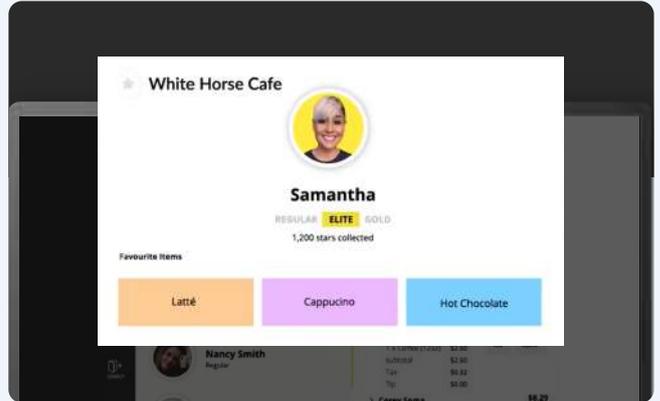

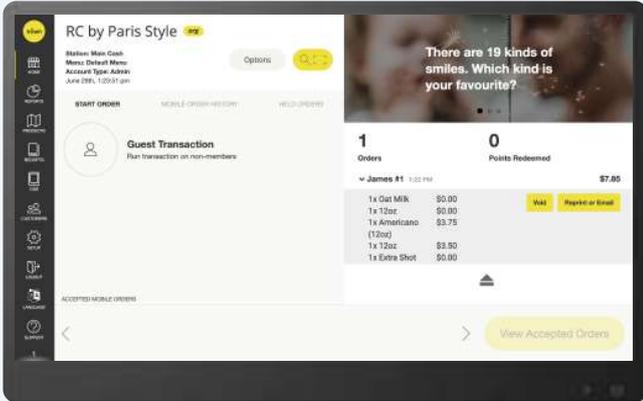

MENU CUSTOMIZATION

Upload a spreadsheet directly to your point of sale or enter new items manually to build a comprehensive menu.

CUSTOMER RECOGNITION

Customer recognition is one of the key features of the known point-of-sale solution. It recognizes your loyal customers and displays their name, picture, and purchase history at the point of sale as they enter your establishment.

CUSTOMER FACING DISPLAY

Allow customers to view their order, personalized promotions and rewards information during the checkout process. Give customers the option to opt into your loyalty program by entering their email on the display.

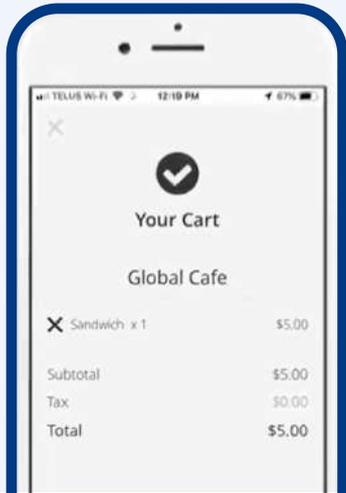

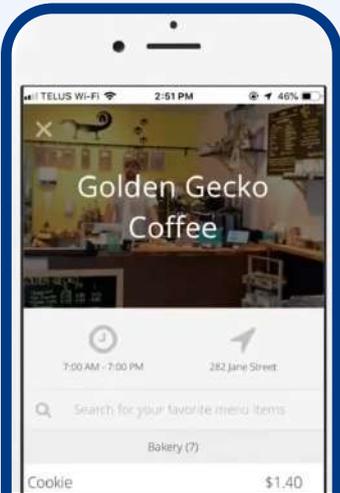

ORDER SYSTEM DISPLAY

No need to shout across the room or bring receipts to the back. The Order Display Screen means back-of-house will always stay on top of orders. Display your orders, as soon as they're processed, in the order they need to go out.

MOBILE PRE-ORDER

Customers can pre-order and pay ahead using the app. It's not necessary to waste your time in queues.

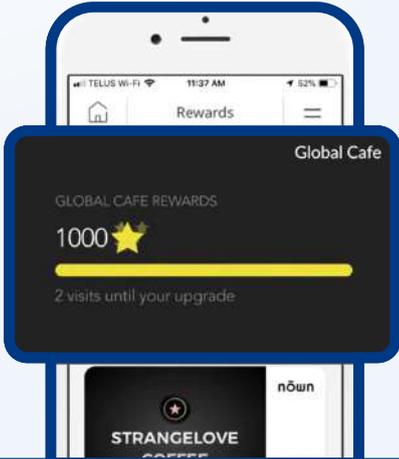

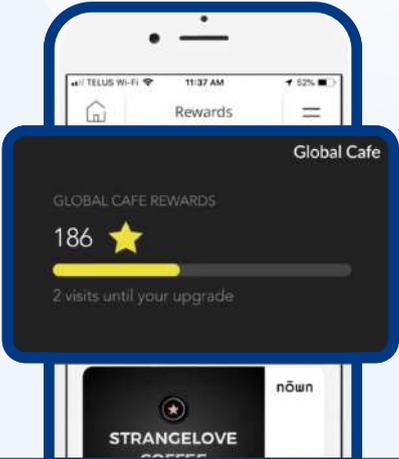

HANDS-FREE PAYMENTS

Hands-free payments allowed customers can pre-authorize payments and pay completely hands-free. You never have to search for your wallet or phone to pay for a meal.

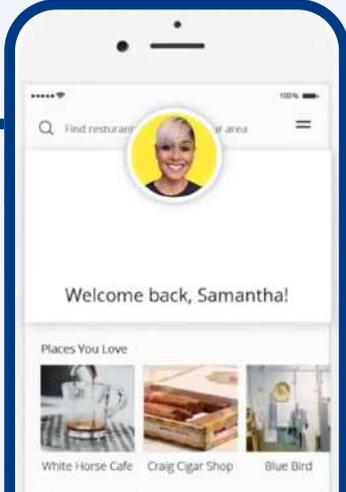

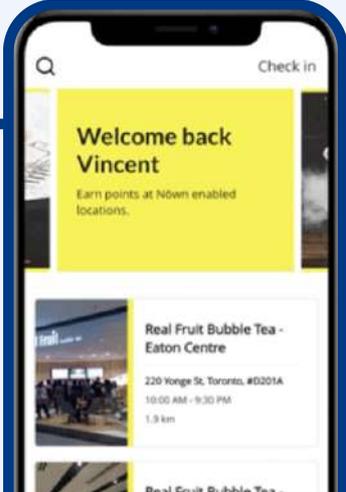

LOYALTY PROGRAM

Customers can join the reward program and receive discounts based on the points they earned. Customers visit your locations, order items and earn points. You surprise you with automatic discounts on future purchases.

GIFTS CARDS

Customers purchase your customized branded gift cards in store customers can use gift cards to make purchase online, in-store and cross-border get yourself a gift of no transaction fees.

BRANDED APP

Your branded app lets your customers view your products, mobile pre-order, pay hands-free, view store hours and more. The app allows business owners to send push notifications and personalized, direct marketing to app users
