

PURPOSE DRIVEN ENGAGEMENT, MADE VISIBLE

PulseMosaic™ is a real-time engagement visualization platform that transforms participation into a dynamic, living mosaic – instantly displayed across screens, websites, and live environments.

It enables organizations to capture authentic input through QR codes or links, moderate submissions, and turn responses into powerful visual storytelling that inspires connection, awareness, and action.

THE PROBLEM IT SOLVES

Most organizations collect valuable stories, feedback, and ideas – but once submitted, they vanish into spreadsheets or reports.

COMMON REALITY

GREAT QUESTIONS

HIGH PARTICIPATION

ZERO VISIBILITY

THERE IS NO SIMPLE, SAFE WAY TO

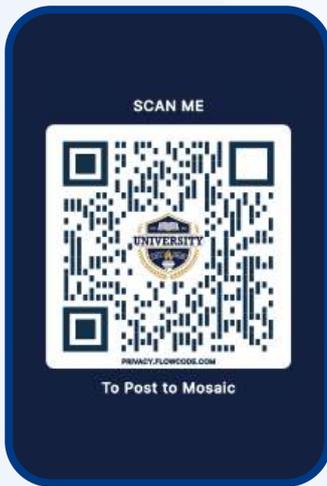

- Ask intentional, themed questions
- Collect visual responses without friction
- Moderate submissions in real time
- Display engagement where people can actually see it

PulseMosaic™ solves this by turning participation into something people experience, not just submit.

1. CREATE THE MOSAIC

Teams set up a PulseMosaic board with a specific question or theme tied to a campaign, event, or initiative.

2. LAUNCH AROUND A MOMENT

PulseMosaic™ activates at the perfect time—during events, orientations, campaigns, or other key moments.

3. SIMPLE PARTICIPATION

Participants scan the QR code or follow a link to upload an image and add optional text.

Supported file types: JPEG, PNG, GIF

No accounts. No logins. No friction.

4. REAL-TIME MODERATION

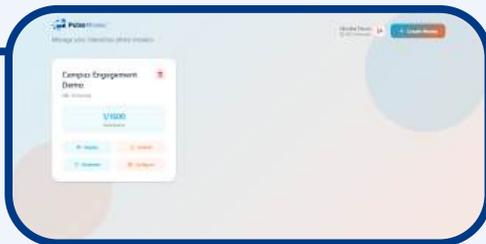

Submissions are reviewed before they go live. Moderators receive instant alerts via Telegram for fast, confident approvals.

5. ENGAGEMENT BECOMES VISIBLE

Approved content instantly appears across digital signage, embedded web pages, or live presentations.

This is the moment engagement becomes visible.

MANAGER EXPERIENCE

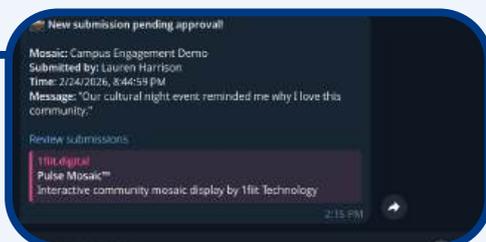

MANAGER DASHBOARD

The Manager Dashboard provides a centralized view to create mosaics, manage themes, and monitor engagement in real time — all from one secure portal.

MODERATION APPROVAL SCREEN

Every submission is reviewed before going live. Managers can instantly approve, decline, or remove posts to ensure content aligns with the organization's standards.

TELEGRAM ALERT NOTIFICATION

Real-time Telegram alerts notify managers when new submissions are received — enabling fast moderation without constantly monitoring the platform.

Designed for visibility on the front end — with control on the back end.

WHERE IT SHINES

Best for high-engagement environments where participation, visibility, and storytelling matter.
